

Anglin Consulting Group is a professional services firm that provides customized IT, finance, and operational support.

COMPANY DESCRIPTION

Anglin Consulting Group is a professional service firm that works with both public and private organizations to bridge staffing shortages, augment existing resources, and enhance processes through in-depth consulting and operational analysis. The company's primary service lines include business operations, IT services, program management, finance operations, logistics and acquisition, and custodial services.

Financial operations support includes the analysis and forecasting of business supply and demand including production scheduling and distribution along with dissemination of information through various media products. We can act as policy and planning authority, coordinating financial execution reviews, mid-year financial reviews, and year-end financial close outs to ensure compliance with the Anti-Deficiency Act. We provide both civilian and military clients with analysis of organizational program practices and financial conditions, with findings presented to key stakeholders.

Business operations assessments help clients in identifying inefficiencies and redundancies enterprise-wide, with recommendations compiled into a detailed strategy for improvement. IT service assessments help clients who are seeking to innovate and optimize internal processes for greater productivity and profitability. Additional support services include centralized program management, comprehensive logistics and acquisition, and custodial services.

Anglin Consulting Group is an economically disadvantaged woman-owned and service-disabled-owned small business. owned small business serving both public and private organizations.
